Professional Overview

Product-minded iOS Engineer with 2+ years of professional experience building, shipping, and maintaining high-quality production iOS applications using **Swift**, **UIKit**, and **SwiftUI**. Skilled in delivering end-to-end features with attention to quality, user experience, and measurable business impact. Hands-on experience with **StoreKit**, **in-app purchases**, **A/B testing**, and **experimentation** in consumer mobile apps. Strong collaborator across product, design, backend, and data teams. Actively uses **AI-assisted development tools** (GitHub Copilot, Claude) to improve productivity, code quality, and testing workflows.

Education

Indian Institute of Information Technology, Kota

Bachelor of Science in Computer Science

December 2020 – May 2024

Jaipur, Rajasthan

Experience

Pincode (PhonePe)

January 2025 – Present

Software Developer - iOS | Swift, UIKit, StoreKit, XCTest, KMP, Fastlane

Bangalore (On-site)

- **Built and shipped** high-quality iOS features for a consumer quick-commerce app serving millions of users, writing clean, maintainable, and well-tested code using **Swift** and **UIKit**.
- **Implemented StoreKit** and **in-app purchase** flows, collaborating with product and data teams to support pricing experiments and monetization efforts.
- **Supported A/B testing and experimentation** workflows to iterate on features and measure engagement and retention impact across the consumer app.
- **Optimized** app launch time, memory footprint, and runtime performance by diagnosing memory leaks and resolving memory pressure issues, directly improving app reliability and user experience.
- **Integrated** Kotlin Multiplatform (KMP) for shared business logic across iOS and Android, partnering with cross-platform and backend engineers to ensure seamless feature parity and performance.
- **Engineered** an internal code-generation tool using **Swift Macros**, **IndexStoreDB**, and **SwiftSyntax** for static analysis and automated boilerplate creation, boosting developer productivity across the iOS team.
- **Wrote** comprehensive **unit tests** (XCTest) and **UI tests** to ensure feature reliability; maintained **CI/CD** pipelines using **Fastlane** for automated builds, testing, and App Store deployments.
- **Leveraged AI-assisted development tools** (GitHub Copilot, Claude) daily to improve code quality, accelerate code reviews, and streamline testing workflows.

AiDash

April 2024 – December 2024

Software Developer - iOS (Intern + FTE) | Swift, UIKit, Firebase, XCTest

Bangalore (On-site)

- **Developed** the BNGAI app from scratch, a B2B product for clients across Europe and Canada, owning end-to-end feature delivery from design collaboration through App Store deployment.
- **Collaborated closely** with product, design, and backend partners to implement 4+ key product features including interactive map functionalities, delivering polished, user-centric experiences.
- Crafted a fully configurable UI that improved usability, leading to a **50% reduction** in user-reported issues during the initial App Store launch phase.
- Participated in **code reviews** and contributed to improving team code quality, development practices, and testing standards using **XCTest**.

DZOR

January 2023 – September 2023

Software Developer (Intern + FTE) | React.js, Flutter, Swift, Kotlin, Firebase

Ahmedabad (Remote)

- Refactored the codebase to implement best practices, reducing code duplication by **20%** and bugs by **25%**, improving code maintainability and quality.
- Launched precise geolocation features in the consumer mobile app, directly driving an increase of **300 active daily users** and improving user engagement and retention.
- Successfully shipped the app to both the **Google Play Store** and **Apple App Store**, managing the full release lifecycle.

Qen Labs

August 2022 – December 2022

Founding Frontend Intern | Flutter, Swift, Kotlin, REST APIs

Delaware (Remote)

- Built a consumer-facing editable map application from scratch using Flutter, integrating **authentication**, **push notifications**, **data storage**, and **real-time updates** — delivering end-to-end with attention to quality and user experience.
- Optimized API requests and reduced load times by **40%**, significantly enhancing app performance and responsiveness.
- Collaborated cross-functionally with product and design to implement intuitive workflows, outperforming competitor solutions.

Zylu

June 2022 – July 2022

Software Developer Intern | Flutter, Swift, Kotlin, REST APIs

Bangalore (Remote)

- Designed and implemented performance features, resulting in a **15% increase** in app speed and responsiveness.
- Collaborated directly with the CEO to define app specifications, leading to a **25% improvement** in app functionality and user satisfaction.

Projects

Handmade & Precious  | *Flutter, iOS, Android, Firebase, Google Cloud*

June 2023

- Engineered an e-commerce app with product listings, cart management, secure authentication, and purchase flows; integrated Realm Database to optimize data retrieval, achieving **2-second faster** load times. Focused on user engagement and conversion-driven UX.

Artificial Eye | *Python, Deep Learning, Neural Networks*

November 2022

- Created a device that captures visual data via camera and converts it into neural signals, incorporating ECG technology to transmit **50%** of visual information to the brain without surgery.

Skills

- iOS Development:** Swift, UIKit, SwiftUI, Swift Concurrency, StoreKit, In-App Purchases, MapKit, Core Location, Swift Macros, SwiftSyntax, IndexStoreDB
- Architecture & Patterns:** MVVM, MVC, Coordinator Pattern, Protocol-Oriented Programming, Mobile Architecture Best Practices
- Testing & CI/CD:** XCTest, Unit Testing, UI Testing, Snapshot Testing, Fastlane, Xcode Cloud, CI/CD Pipelines
- Experimentation:** A/B Testing, Feature Flagging, Pricing Experiments, User Engagement & Retention Metrics
- Cross-Platform & Backend:** Kotlin Multiplatform (KMP), Flutter, React Native, React.js, Node.js, Firebase, REST APIs
- AI-Assisted Development:** GitHub Copilot, Claude, AI-Supported Testing & Code Review Workflows
- Other:** Git, GitHub, Realm, Google Cloud, App Store Deployment, Agile Development, Code Reviews

Leadership / Extracurricular

Training and Placement Cell <i>Student Placement Coordinator</i>	January 2023 – May 2024 <i>Indian Institute of Information Technology Kota</i>
Athletics Team <i>Captain</i>	January 2023 – March 2024 <i>Indian Institute of Information Technology Kota</i>
Fit India Club <i>Lead</i>	August 2022 – December 2022 <i>Indian Institute of Information Technology Kota</i>
